NRO REVIEW COMPLETED

RECIPIENT FOR : Deputy Director (Plans)

25X1 SUBJECT : [REDACTED] Visit Project Headquarters

25X1 1. On 26 Nov [REDACTED] of Nyeon visited Project Headquarters and not with Mr. John Fersengorky after determining that the DD/P was unavailable.

25X1 2. [REDACTED] stated that Nyeon was approached by an unnamed representative of Bellanca Aircraft Corporation, allegedly because of interest indicated by someone, unidentified, in NASA and CIA, for the purpose of determining if Nyeon would prepare a camera proposal for use in the Mercury program. [REDACTED] asked if the identity of the NASA or CIA people interested in the foregoing is known. When told that a quick check revealed that Project Headquarters had no information about this matter, [REDACTED] indicated that he would check with [REDACTED] Mr. Adlard Conner, at NASA.

25X1 3. [REDACTED] stated that Nyeon can prepare an attractive camera proposal for a recoverable Mercury capsule utilizing a new 70, 84, or 96 mm lens system, 2-configuration components, and thin base film for a 3-day operation. This system would be capable of resolving five feet on the ground. Further, Nyeon could have a camera available for flight within ten months time. [REDACTED] pointed out that due to the stress on reliability in the recovery phase of the Mercury capsule, this approach should provide a high degree of probability for camera recovery. [REDACTED] felt that since the Mercury program plans a number of firings, for test purposes, without astronauts aboard, the inclusion of a camera should be attractive substitute package to the intelligence community. [REDACTED] felt strongly that some interim system should be of interest to the intelligence community until SAMOS becomes operational.

25X1 4. [REDACTED] stated that if the DD/P is interested in the foregoing, Nyeon, at its own expense, would prepare a proposal for presentation to the DD/P. Nyeon, however, would not wish to undergo the expense of working up a formal proposal unless the DD/P envisions the idea as having merit. [REDACTED] was told that the foregoing would be brought to the attention of the DD/P.

5. My subject: [redacted] mentioned that [redacted] may supply two A-2
engines to [redacted] International for use in two modified QH drones. If
[redacted] International receives a contract from the USAF as expected on 3 June,
[redacted] will be required to deliver to [redacted] two (2) A-2 engines by 31 July.
According to [redacted]

NRO
25X1

[redacted] are the designated USAF officers of this project. Colonel [redacted]
states that the above officers are assigned to USAF [redacted] Operations
at the Pentagon.
